Dear ASE District Churches:

This coming week you will be receiving a packet from **NEW MOVERS EVANGELISM** in Ohio. **PLEASE** do not throw this packet away thinking it is just advertising. This packet is a personalized plan for your congregation to be involved evangelism to new homeowners in your community. The plan will show the zip code(s) surrounding your church, how many people buy new homes on an average in that zip code, and how you can enroll in this program.

If you do enroll you will receive a list and mailing labels of all new homeowners for your use in mailings.....and even their telephone numbers (if yet available) for a welcome/invitation call. If you enroll, you will also get a suggested telephone script and a check list on how to follow-up with new people who move into your community.

This is a very inexpensive way to identify and respond to new people who move near your church. If they are moving from outside the community, these lists are invaluable in contacting people who will hopefully be looking for a new church home.

We would like to encourage you to give this program serious consideration. We pray these resources will become valuable tools in helping your church reach out to others with the Gospel of Jesus Christ.

Yours in Christ,

Terry Hatfield

Director of Witness
